

GODDESSES NEEDED!

+ YOU =

I am humbly seeking models to complete the life-cast portion of an ambitious sculpture project. Project involves constructing life-sized, Neolithic Goddess images from plaster life-casts of life-sized, terrestrial women.

While “looks” in the contemporary sense are Not Important for this project, the ability to forego modesty and sit still for 20 minutes is!

Me? Tattooed, modified, and weird in the classic Portland style, but totally safe and stable... ish. I'm an artist (see, poor). Even so, I will pay the right model so that I can finally manifest this piece!

You? A woman fitting one of two body types below and willing to help me make great art with your archetypal form! Current direction of the project calls for two primary body types: VERY small framed, small chested women (4'10" – 5'2") and women with VERY large breasts (G cup and beyond).

Contact me, plasterotica@yahoo.com for details!
